

# **AMDCC Sharing Policy**

Version: 2

Replaced by version: 1

Edited by: Richard A. McIndoe, Ph.D.

All data and resources generated with AMDCC support will be made immediately available to all active members of the consortium. All data and resources generated with AMDCC support will be made publicly available after the first of: (1) publication, or (2) two years.

- For data, two years starts at generation (i.e. uploaded to [www.amdcc.org](http://www.amdcc.org)).
- For resources, two years starts at successful production (i.e. notification by JAX of PI availability).

Because it is sometimes not possible to publish or even interpret data within a two year timeframe, investigators may make a request to NIH Program staff that certain data be withheld from the public for a specified period of time.

NIH guidelines regarding sharing can be found at <http://grants1.nih.gov/grants/guide/notice-files/NOT-OD-03-032.html>
